

I listen to K-Love on 88.7, 1040, and 92.9 at home, work and while traveling in my car during the day and evening
I can listen to "commercial free", wholesome music without offending words in the music or from the discjockey.
The K-LOVE station, sent over its current FM translator service provides positive news, music, and upcoming community event notices. It provides a calming affect in todays hurried world. Hudreds of thousands of listeners should not loose this family friendly environment.
